# TEAM UP FOR STUDENT SUCCESS

Support for educators is essential. But it doesn't look the same for everyone in your learning community. Ensure student success by giving all the educators in your school or district a better way to collaborate and adapt to changing learning needs.

I want to save time finding materials to engage my students and differentiating learning.

I want to be responsive to the needs of educators and invest our time and resources wisely to improve student outcomes.

GALE IN CONTEXT: FOR EDUCATORS

A powerful instructional tool that helps teachers save time with flexible lesson plans and quality supplemental curriculum content, while fostering collaboration among all the educators supporting student achievement.

TEACHER
ADMINISTRATOR
CURRICULUM LEADER
INSTRUCTIONAL TECHNOLOGIST

I want to help teachers find and use diverse, curriculum-aligned resources to support their teaching and ensure equity for our students.

I want to help colleagues feel confident and excited to use digital learning technology in daily instruction.

FIND high-quality class resources to support personalized learning

- Save time with prebuilt lesson plans and engage students with digital learning content.
- Differentiate teaching and ensure equity with a variety of content types and reading levels embedded, language translation, and accessibility tools.
- Measure student progress and use integrated assessments to check for understanding.
- Fit into your existing workflow with Google, Microsoft, Canvas, and Schoology integration.

EQUIP a collaborative, student-focused team

- Provide standards-aligned materials that can be easily used for everyday instruction.
- Create and share curated resources with teachers to ensure continuity for all students.
- Prepare teachers with lessons and content to support social development and mental health.
- Facilitate teamwork among seasoned educators and newer teachers, coaches, and specialists.

PROVIDE ACCESS to diverse digital content from trusted sources

- Empower colleagues to effectively use digital materials with built-in training tools.
- Integrate with the learning management system and technology the district already uses.
- Enhance personalized instruction across the curriculum to improve student performance.
- Support life readiness and help students become tech savvy.

DRIVE OUTCOMES with one resource that serves all educators and students

- Deliver value to families and the community by ensuring all investments support student achievement.
- Foster a positive and culturally responsive learning environment that provides equity for all.
- Promote inquiry-based learning and soft-skill development so students are set up for success in college, career, and life.
- Energize teachers with increased collaboration within and across teams.

The result? Students are empowered to grow as critical thinkers and future-ready learners.
