Gale Case Studies: Women's Issues

EXPLORE TOPICS RELEVANT TO WOMEN

Gale Case Studies: Women's Issues examines several topics through the lens of their impact on women. Issues include: reproductive rights, gender expectations, family rights for lesbians, sex, transgender rights, discrimination against Asian and Black women, and mental health, among others. Each case study brings together relevant primary sources to provide a wide array of modern perspectives as well as historical context to various strands of women's rights movements.

These topics speak to persistent and resurgent issues centered on the rights of women, bringing valuable perspectives and models for student research and classroom discussions.

EXPLORE WOMEN'S ISSUES FROM ALL SIDES

MEET STUDENT AND FACULTY NEEDS
This module hits on many of the hot-button topics that are being debated both in and out of the classroom, meeting the need for timely, accurate, and engaging content that can provide a framework for these debates.

SAVE TIME FOR WHAT MATTERS MOST
Thoroughly curated content saves faculty time searching for relevant course materials. Situational case studies and primary sources also fit easily into courses and seamlessly integrate into learning management systems (LMS).

COLLABORATE ACROSS DISCIPLINES
The intersectional nature of these case studies lends them to cross-disciplinary use of the information in several courses, including women's studies, political science, history, Black studies, Asian studies, and gender and LGBTQ studies.

SATISFY COURSE OBJECTIVES
Case studies can be used on their own or together to create a lesson or as supplemental material to a lesson.

STRENGTHEN SKILLS FOR THE FUTURE
Students can apply the critical thinking skills they have gained working with *Women's Issues* to analyze primary sources in other topical areas.

Gale, here for **everyone.**

GET TO KNOW THE GALE CASE STUDIES PLATFORM

Gale Case Studies is our newest resource to help librarians and faculty save time developing effective course activities by packaging relevant primary source content with case studies.

By modeling how novice researchers approach information literacy, students can develop inferences and practice their own critical-thinking skills with a focused set of primary sources before exploring larger research collections.

Our intuitive platform has been enhanced to help students navigate between case studies and primary source content independently.

Product screen capture as of February 2022. Actual interface may vary.

CURATED CONTENT

Content is carefully chosen by an academic editor in chief who has thoroughly reviewed the case studies for accuracy and teachability.

GUIDED EXPERIENCE

Instructors and student users are guided through the workflow by an intuitive experience that begins with the case study, then leads to curated primary sources and discussion questions.

FOCUSED STUDY QUESTIONS

Discussion questions are provided at the end of the workflow to act as a prompt for students to critically analyze primary sources and topics.

PRIMARY SOURCES

With *Gale Case Studies*, users can look at the primary source content, such as images, handwritten letters, or newspaper articles, as they were originally published.

COLLABORATION TOOLS

The platform allows academic instructors to seamlessly upload content into their LMS products, which prevents students from leaving the LMS to find content. This also makes content compatible for remote teaching.

CULTURALLY RESPONSIVE TEACHING AND LEARNING

Gale Case Studies uses historical content to help undergraduate students develop critical-thinking skills around contemporary social justice issues. Topics include LGBTQ rights, public health concerns, political extremism, and race. Together, the online format and robust range of authoritative content facilitates instruction in a virtual or remote classroom setting.
